

CHAIMA HICHRI

third-year Computer Science student

Passionate about programming, I am eager to grow my skills through hands-on experience. Motivated, creative, and a problem-solver, I am ready to contribute to exciting projects and stay updated with the latest tech trends as an intern.

TECHNICAL SKILLS

- **Programming:** Java, Python, JavaScript, C, Spring Boot
- **Web Development:** React.js, HTML, CSS, Angular
- **Databases:** SQL
- **Embedded Systems:** Arduino
- **Operating Systems:** Linux (Ubuntu, CentOS)
- **Scientific Computing:** MATLAB
- **Networking:** Cisco Packet Tracer
- **Smart Contracts / Blockchain:** Solidity

Languages

- English
- French
- Italian

EDUCATION

2023-2026

Software Engineering and Information Systems

Faculté des sciences bizerte, Tunisia

Relevant Coursework :

- Algorithms and data structures
- Web development
- Data warehousing
- DataBase engineering
- Network Fundamentals
- Blockchain
- Machine Learning
- IA

PROFESSIONAL EXPERIENCE

Capgemini Engineering – Ariana, Tunisia

Short-term Internship — August 2025

Technologies : React, Node.js, Express, MySQL, JWT Authentication, Python, Flask, AI Recommendation System

Project : Developed Sport Zone, an online e-commerce platform dedicated to sports products, offering a seamless shopping experience through modern UI/UX, secure order processing, and intelligent product recommendations.

Key Contributions :

- Designed and built a responsive and user-friendly frontend using React, including product listings, detailed product pages, shopping cart management, and order tracking.
- Developed secure and scalable backend APIs with Node.js & Express, handling authentication, product management, user accounts, and order processing.
- Implemented JWT-based authentication and authorization to ensure secure access and protect user data.
- Designed and optimized relational database schemas in MySQL, ensuring fast product queries and efficient order management.
- Integrated an AI-powered recommendation system using Python/Flask, providing personalized product suggestions to enhance customer engagement.
- Built an admin dashboard for managing products, users, and orders, with real-time statistics and activity monitoring.
- Collaborated within an Agile/Scrum workflow, participating in daily stand-ups, sprint planning, and code reviews.

Active Member, CPU Development Club 2023-2024

CPU, bizerte

Being part of the CPU Club has been a valuable experience. I improved my programming, problem-solving, and teamwork skills through workshops and training sessions on languages like JavaScript and Java, and frameworks like React. I also applied my knowledge by building small practical projects.

Active Member, AIESEC 2024-2025

AIESEC, bizerte

Through AIESEC, I took part in youth-focused projects, coordinated local and international events, and worked with multicultural teams. This experience strengthened my leadership, project management, and intercultural communication skills while contributing to meaningful community initiatives.

ACADEMIC -PROJECTS

Collaborative Project Management Web Application

Developed a web application for collaborative project management using Angular for the frontend and Spring Boot for the backend. The app enables team members to manage tasks, share updates, and coordinate efficiently.
